Recruitment Team   *February 2, 2018*

MISSISSAUGA, ON, CANADA

Re: **Job Application for 2018 Network Graduate Leadership Program (Quebec, Ontario, Atlantic)**

Dear Recruitment Team,

About Me _____

To become a good software engineer is my dream. I like technology because technology helps us to gain insight about this world, make us life convenient and easier. To develop software tools and web applications will lead a road to become a good software engineer, which is also my passion lies in.

Why Bell Canada? _____

Bell Canada provides the opportunity for new graduates to work alongside the best minds in the industry and be a key leader in the evolution towards security, network and software development. For the 2018 Network Graduate Leadership Program, the new graduates can gain valuable experience in the areas that most interest to them. This is a great opportunity for new graduates and I am really excited about this program. For myself, the areas I am interested in are Security specialist, Application and software development specialist, Big Data specialist, and Network architecture and engineering specialist.

Why Me? _____

I am always open to learn and would like to learn. I have already gained fundamental knowledge in computing and software at school as well as practical software design skills in the projects. I build my cybersecurity knowledge in my recent Canarie intrusion detection system project. I see Bell Canada as a great opportunity and my dream place to start my career as a new graduate.

Location Preference _____

Ontario

Sincerely,

Alice (Aili) Zou
